Yeah, I know that they're hoping for approval for that, as well. I'll be looking for that in my email! ☺

Oh – and my cell phone is 720-261-7036 if you need **\*anything\***. I realize that things often come up at very unpredictable times, and I want people to feel free to call or text me any time anything needs to be posted/updated/etc.

Thanks,

Tim

Any time! I called and texted Melissa. Hopefully she'll text or call me with the statement very shortly. This is definitely an important change!

And I'm REALLY glad that we now have the Call Center's number available in La Plata County! The Superfund folks asked for permission to post that earlier today.

Thanks so much for all your help with everything!

Hmm, all I see from Melissa Harrison is:

I sent David's changes back to HQ. Not sure why it hasn't been changed. Ccing more to get it done.

Is there a revised statement? It looks like she sent it to HQ, but I unfortunately don't see it. Sorry about that!

Thanks,

Tim

The new web site says:

While excavating loose material that had collapsed into the cave entry, pressurized water began leaking above the mine tunnel, spilling about three million gallons of water stored behind the collapsed material into Cement Creek, a tributary of the Animas River

Is that accurate? I've not seen that before.
